Type	Checks / Maintained by

Construction Phase Health and Safety Plan		Compiled for	
Ref No:		Authorised by:	SHE Global LLP

7. Safe System of Works

Complete checklist prior to commencement of works

Serial	High risk construction work	Yes
1	Involves a risk of a person falling more than two meters	<input type="checkbox"/>
2	Involves demolition of an element of a structure that is load-bearing or otherwise related to the physical integrity of the structure	<input type="checkbox"/>
3	Involves, or is likely to involve, the disturbance of asbestos	<input type="checkbox"/>
4	Involves structural alterations or repairs that require temporary supports to prevent collapse	<input type="checkbox"/>
5	Is carried out in or near a confined space	<input type="checkbox"/>
6	Is carried out in or near a shaft or trench with an excavation depth greater than 1.5 meters or is carried out in or near a tunnel	<input type="checkbox"/>
7	Involves the use of explosives	<input type="checkbox"/>
8	Is carried out on or near pressure systems distribution mains or piping, chemical, fuel or refrigerant lines, or enclosed electrical installations or	<input type="checkbox"/>
9	Is carried out in an area that may have a contaminated or flammable atmosphere	<input type="checkbox"/>
10	Involves work on or precast concrete	<input type="checkbox"/>
11	Is carried out on, near or adjacent to a road, railway, shipping lane or other public corridor that is in use by traffic other than pedestrians	<input type="checkbox"/>
12	Is carried out in an area at a workplace in which there is any movement of powered mobile plant	<input type="checkbox"/>
13	Is carried out in an area in which there are artificial extremes of temperature	<input type="checkbox"/>
14	Is carried out in or near water or other liquid that involves a risk of drowning	<input type="checkbox"/>
15	Involves diving work	<input type="checkbox"/>

Confirmation of any of the above hazards requires a review of the Safe System of Works and further control measures implemented.
